EDUCATION

- B.Tech – Artificial Intelligence and Data Science**
J.N.N Institute of Engineering
Affiliated to Anna University
2025 – 2029
- Higher Secondary (12th)**
Bosco Academy Matric
Higher Secondary School
92.6% | 2024
- 11th Standard**
Bosco Academy Matric
Higher Secondary School
87.5% | 2023
- Secondary School (10th)**
Bosco Academy Matric
Higher Secondary School
91.0% | 2022

LANGUAGES

Tamil (Native)

English (Proficient)

Hindi (Intermediate)

Japanese (Beginner)

ABOUT ME

Motivated B.Tech AI & Data Science student with a strong interest in machine learning and software development. Eager to apply technical knowledge to real-world problems and continuously learn through projects and hackathons.

TECHNICAL SKILLS

Programming Languages	Python, Java, C, C++
Machine Learning	ML Basics
Tools	VS Code

PROJECTS

WeatherGuard AI – AI-Based Forecast Bust Detection 2026

Python Machine Learning Random Forest XGBoost SHAP

- Developed an AI-based system to detect potential forecast busts in medium-range weather predictions.
- Built a large-scale weather dataset with 1M+ records using forecast-based features such as temperature, humidity, rainfall, pressure, wind speed, wind direction, lead days and temporal features.
- Designed a leakage-free machine learning pipeline using only forecast variables.
- Trained and evaluated models for multiple forecast lead times (Day 1, Day 3, Day 5 and Day 7) using Random Forest and XGBoost.
- Applied SHAP for model interpretability and feature importance analysis.
- Implemented a prediction system for classifying forecasts into Normal, Warning and Forecast Bust risk levels.

HACKATHON EXPERIENCE

Smart India Hackathon – WeatherGuard AI 2026

- Worked as a Machine Learning team member.
- Responsible for dataset preparation, model development, evaluation and prediction-system integration.
- Contributed to building an end-to-end AI solution for real-world weather forecast error detection.

AREAS OF INTEREST

Artificial Intelligence Machine Learning Data Science
Problem Solving Software Development Real-World Applications

STRENGTHS

- Problem Solving
- Fast Learning
- Team Collaboration
- Analytical Thinking
- Adaptability
- Curiosity for New Technologies
